BADGES

PROFESSIONAL SUMMARY

Solutions-driven and resourceful specialist with extensive experience in enterprise data management, business intelligence, data analytics, ETL program management, solution modeling, aligning business, information and technology strategy formulation. Emphasis on introducing key technology solutions to meet the changing reporting needs of a dynamic business environment. Expert at operating multiple projects and serving as Technical Lead for project management, whilst coaching other junior developers. The articulate communicator can fluently speak the language of both people and technology, blending technical expertise with interpersonal skills while interacting with the customers/teams and providing client support.
